

LOOKING FOR AN INTERNSHIP?

Thank you for your interest in serving as a student intern at Pearl River Valley Water Supply District. This intern program is designed to provide currently enrolled college students with intensive, hands-on experience in the fields of Civil Engineering, Environmental Engineering, Water Resource Management, and Forestry. Preference will be given to rising juniors and seniors. One student will be selected for the first half of the summer/winter; another student will be selected for the second half of the summer/winter. Students will be paid \$10 per hour, not to work more than 30 hours per week. Candidates should submit information to comments@therez.ms with the subject field labeled internship.

Requirements

1. Enrolled college student in good standing majoring in one of the listed fields.
2. Resume, references, transcript, and a short cover letter emailed to PRVWSD.
3. Interview.

Application Deadline

Summer
May 1, 2025

Winter
December 15, 2025
